This booklet contains a list of household cleaner and gardening products to help consumers identify safer alternatives to the toxic chemicals they may be using. Please keep in mind the availability and price of the products listed in this booklet are subject to change at any time.

Cleaners with harsh chemicals can be toxic to the user, children, and pets. For example, hydrochloric acid is a harmful ingredient that can corrode the skin and cause eye irritation, kidney damage and irritation to your respiratory tract if inhaled. Alternative DIY cleaning recipes will also be provided in this booklet.

TIP: If you are viewing this booklet on a computer or device with internet, click on the item name to open a link and purchase the product online.

DIY Natural Cleaning Recipes

Easy Toilet Scrub

Spray vinegar in the bowl and allow to sit for several minutes. Then sprinkle bowl with baking soda, scrub, and flush.

Vinegar Bathroom Cleaner

Vinegar is a safe, mild acid that disinfects and eliminates odors. Use diluted or straight vinegar to scrub away bacteria.

Borax Build-up Cleaner

Borax is a naturally occurring mineral that doesn't harm your body or the environment. Make a thick paste of borax and water, apply to the build-up area, and let sit overnight. Brush and rinse off to get rid of mildew and grout discoloration.

HERBICIDES & PESTICIDES

1 Gal. 20% Vinegar Weed Killer

Location: Home Depot

Est Price: \$23.98

DIY Herbicide Recipes

Boiling Water Herbicide

Kill weeds on sidewalk or an area you would like to replant with boiling water.

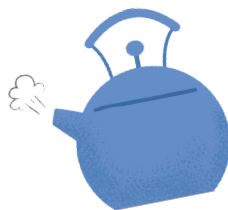

Table Salt Herbicide

Only apply to leaves of weeds and not soak the soil. Dissolve 1 part salt with 8 parts hot water and add some liquid dish soap. Spray onto leaves fo weeds.

Vinegar Herbicide

White vinegar is 5% acetic acid which is strong enough for most weeds. Apply onto leaves of weeds. Repeat applications may be necessary

Salt and Vinegar Herbicide

1 cup salt with 1 gallon vinegar and spray onto leaves of weeds. Add liquid soap, citrus oil, or clove oil, to make it more effective.

Borax Herbicide

10 ounces of powdered borax to 2.5 gallons of water, mix thoroughly and use a sprayer to boat the leaves of unwanted weeds.

HERBICIDES & PESTICIDES

DIY Pesticide Recipes

Oil Spray Insecticide

Mix 1 cup vegetable oil with 1 tablespoon soap. When ready to use, mix 2 teaspoons of the mixture with 1 quart water, and spray directly on the surface of the plants.

Soap Spray Insecticide

Mix 1.5 teaspoons of mild liquid soap with 1 quart water and spray on infected surfaces of plants. Recommended to apply in evenings and early mornings.

Diatomaceous Earth

Diatomaceous earth is a sedimentary rock made by fossilized algae and works by dehydrating insects. Sprinkle on foliage, dust the ground around the plants to control snails, slugs, and insects. Needs to be reapplied after every rain.

Neem Oil Insecticide

Neem oil prevents insects from feeding on leaves and is biodegradable and nontoxic. For use against insects and fungal infections. Follow instructions on neem oil bottle or mix 2 teaspoons neem oil, 1 teaspoon mild liquid soap, and 1 quart of water together. Spray of affected plant. It can also be used preventatively before plant is infected.

HERBICIDES & PESTICIDES

Garlic Insecticide Spray

Take 2 whole bulbs (not cloves) and puree them with a quart of water. Let sit overnight, then strain into a jar. Adding 1 cup of vegetable oil is optional. Add 1 teaspoon mild liquid soap. When ready to use, use 1 cup of mixture with 1 quart of water and spray on plants.

Chile Pepper Insecticide Spray

Mix 1 tablespoon chile powder, 1 quart water, and several drops mild liquid soap. To make from fresh peppers: puree 1/2 cup peppers with 1 cup water. Boil in a pot with additional 1 quart of water. Strain out chile material and add several drops of liquid soap before spraying.

HERBICIDES & PESTICIDES

All-In-One Insecticide Spray

Puree 1 bulb garlic, 1 small onion, 1 teaspoon cayenne pepper powder and steep for 1 hour. Strain, add 1 tablespoon of liquid soap and mix well. Spray full strength onto upper and lower parts of leaves. Store in fridge for up to a week.

Tomato Leaf Natural Insecticide

Tomato plants have alkaloids that can control aphids and other insects. Chop 1 cups fresh tomato leaves into 1 quart water and let steep overnight. Strain out the plant and spray onto leaves.

HELPFUL RESOURCES

Environmental Working Group (EWG)

EWG's Guide to Healthy Cleaning reviews and rates more than 2,000 popular household cleaning products with grades A through F, based on the safety of their ingredients and the information they disclose about their contents.

HELPFUL RESOURCES

Here is a helpful guide to safer, more environmentally-friendly products, made by the King County Hazardous Waste Management Program

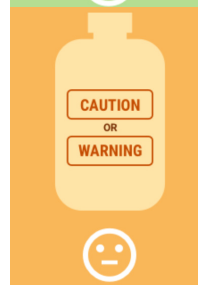

SAFEST: Find products with these logos on the front or back. Please note, EPA Safer Choice products are the safest in their class, even if it says CAUTION on the label.

SAFE ENOUGH: Select products that do NOT have the words CAUTION, WARNING, DANGER, or POISON.

SOMEWHAT HARMFUL: Select words that have the words CAUTION or WARNING

AVOID: Avoid products with the words DANGER or POISON. They are the most harmful for you and your family.
